- For textured and sensitive surfaces like wallpaper or plaster
- For objects up to 0.5kg\* per nail or 1kg using 2 nails
- Removable without a trace
- Reusable with a new strip

\*For optimal results please read instruction leaflet

## Application Fields

How to apply – Step by step1. Get the most out of each Adhesive Strip by cleaning the surface of dirt and dust with a dust-free cloth.

2. First, apply the Adhesive Strip to the rougher surface (so in the case of wallpaper or plaster, always apply it to the wall) with the blue tab facing the wall. Before using, make sure that your surface is strong enough to take the weight of the object you want to attach.

3. Press down evenly over the entire strip for at least 5 seconds and only then remove the protective foil. Pressing down like this activates the flexible polymer chains that form U-shaped links with the surface. It's these links that give such a secure and reliable bond, so the harder and more evenly you press, the better the bond.

4. Now apply the tesa® Adhesive Nail by aligning it on the top edge of the strip, then folding it down. Press down evenly all over the entire nail for at least 5 seconds.

5. The tab should be left accessible behind your object or under the nail for easy removal.

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

## Product Construction

- |   |                  |                  |        |
|---|------------------|------------------|--------|
| • Massa adesiva                           | synthetic rubber | • Senza silicone | yes    |
| • Forza di adesione della striscia fino a | 0.5 Kg           | • Tenuta fino a  | 0.5 Kg |
