

tesa[®] 4843

Product Information

Premium Plastering Tape Orange

Product Description

tesa[®] 4843 is a specially formulated plasticised PVC tape with a flat backing, low unwinding force and high adhesion. Having a soft modified and thick rubber adhesive coating tesa[®] 4843 is suitable for most rough surfaces. The tape can withstand humidity, weak alkaline solutions, acids and many other chemicals. Once applied it can be easily removed even after 2 weeks of outdoor application without leaving any residue.

Application Fields

tesa[®] 4843 is suitable for masking during plastering, painting, gypsum, masonry and stucco work. It protects the surfaces of sensitive profiles and facings against dirt and damage through manufacturing tools and material. It is also suitable for the sealing of bags, heavy duty wrapping and other DIY applications. The tape can be used for temperatures above 0°C.

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

- Backing PVC film

Properties/Performance Values

- Tear resistance yes
- Temperature resistance yes

Adhesion to Values

- Steel 1.2 N/cm
