

tesa® 4331

Product Information

High temperature masking tape

Product Description

tesa® 4331 is an extremely temperature resistant, flatback masking tape which offers the following qualities:

- · strong adhesion and high temperature resistance
- · achieves sharp paint edges
- · removal without residues

Product Features

- The tape enables sharp color edges and offers excellent paint anchorage.
- The masking tape's silicone adhesive system makes the tape extremely heat-resistant, withstanding extreme temperatures of up to 200°C for as long as 30 minutes at a time.
- Residue-free removability for masking applications
- · High adhesion for secure bonding, even adheres to surfaces containing silicone

Application Fields

- Masking during high stress electrostatic powder coating
- · Steel furniture and hospital equipment
- tesa® 4331 sticks to surfaces containing silicon

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

•	Backing material	PET / non-woven •	Total thickness	110 µm

Type of adhesive silicone

Properties/Performance Values

•	Elongation at break	100 %	•	Easy to remove	yes	
•	Tensile strength	53 N/cm	•	Hand tearability	low	

Adhesion to Values

• steel 4 N/cm
