

# 7058

## High Transparency

### Product Information

ACX<sup>plus</sup> High Transparency 2000µm

### Product Description

tesa<sup>®</sup> ACX<sup>plus</sup> 7058 is a transparent acrylic core tape. It consists of a high-performance acrylic system and is primarily characterised by its Bonding Power, Stress Dissipation and its Temperature and Weather Resistance. Due to the high transparency it is especially suitable for constructive bonding of transparent and translucent materials such as glass or acrylic. The visco-elastic, solid acrylic core compensates different thermal elongation of bonded parts.

### Product Features

- Transparent acrylic core tape and ideal for bonding transparent / translucent substrate

### Application Fields

Bonding of transparent and translucent materials in the following Industries:

- Partition Walls
- Sign manufacturing
- Deco Glass Panels

### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

- |                    |                    |                   |             |
|--------------------|--------------------|-------------------|-------------|
| • Backing material | solid acrylic      | • Total thickness | 2000 µm     |
| • Type of adhesive | pure acrylic       | • Colour          | transparent |
| • Type of liner    | silicone-free film |                   |             |

### Adhesion to Values

- Steel (after 3 days) 27 N/cm

### Additional Information

PV 24 = Blue filmic liner

tesa<sup>®</sup> ACX<sup>plus</sup> 7058 is recognised according to UL Standard 746C. UL File QOQW2.E309290
