

# tesa<sup>®</sup> 6003

## Product Information

### Professional Hand Dispensers

#### Product Description

tesa<sup>®</sup> 6003 are tailor made hand devices which are available in different designs according to the field of application. The main advantages of the dispenser is the high precision. Depending on demands of the application the cutting process could be included.

The dispensers are able to apply 3-19mm (5-25mm) tape with less tolerance and the necessary pressure.

The device is robust and reliable for long term use under production conditions.

Depending on the requirement profile there are more advantages feasible.

#### Application Fields

With the aid of the dispenser the position of the tape can be aligned exactly for different processes.

The dispenser is able to be used for plastic parts and metal parts, furthermore for painted and unpainted surfaces.

In reference to the environment, the dispenser could be developed for right and left hand workers and as a pull or push system.

06003-0-0 Dispenser for Fine- Line Tape Application
