

# tesa® 60954 Anti-Slip Tape Heavy Duty

## Product Information

Anti-slip tape for heavy duty applications

### Product Description

tesa® 60954 is an anti-slip tape with a highly-durable backing and designed for permanent heavy-duty applications, where good grip and safe footing is required, e.g. construction vehicles or platforms and ramps. The heavy-duty anti-slip tape is a single-sided tape, with a paper liner, in form of a durable, hand-tearable anti-slip backing with an acrylic adhesive. The backing consists of a PVC film which is coated with large mineral particles and has been specifically developed for extreme conditions to provide extra slip resistance in heavy-duty applications. The acrylic adhesive provides an excellent bond to most surfaces.

tesa® 60954 is certified according to DIN 51130 and available in the colors black, yellow, black-yellow and grey. The bright yellow and black-yellow colored tapes have a strong visibility for easy identification in areas of safety concerns and for warning purposes, a perfect solution for complementing 5S manufacturing initiatives.

#### Benefits:

- Highly-durable backing with extra slip resistance for extreme conditions
- Reduced clogging due to coarse particles
- Slip resistance R13 according to DIN 51130 (R12 for black-yellow)
- Secure bonding to most surfaces
- Good chemical and weathering resistance
- Bright yellow and black-yellow colors ensure strong visibility for easy identification

### Product Features

- Highly-durable backing with extra slip resistance for extreme conditions
- Reduced clogging due to coarse particles
- Slip resistance R13 according to DIN 51130 (R12 for black-yellow)
- Good chemical and weathering resistance
- Bright yellow and black-yellow colors ensure strong visibility for easy identification
- Secure bonding to most surfaces

### Application Fields

- tesa® 60954 is recommended for permanent heavy-duty applications, where good grip and safe footing is required, e.g. construction vehicles, semi-trailers, platforms, ramps, forestry and agriculture equipment
- The heavy-duty anti-slip tape is a perfect solution for complementing 5S manufacturing initiatives

# tesa<sup>®</sup> 60954

## Anti-Slip Tape Heavy Duty

### Product Information

#### Product Construction

• Backing	PVC film coated with large mineral particles	• Thickness of liner	180 µm
• Type of adhesive	acrylic	• Thickness of tape	1185 µm
• Total thickness	1365 µm		

#### Properties/Performance Values

• Elongation at break	35 %	• Hand tearability	good
• Tensile strength	40 N/cm	• Suitable for die cutting	yes
• Chemical Resistance	good		

#### Adhesion to Values

• Steel	7 N/cm
