

tesa® 60412

Product Information

Recycled PET Packaging Tape

Product Description

tesa® 60412 is a general-purpose packaging tape based on a 70% Post-Consumer Recycled (PCR) PET backing and a water-based acrylic adhesive system. tesa® 60412 has a strong and abrasion resistant backing with excellent bearing and wear properties. It features a very consistent, pressure sensitive acrylic adhesive, making this product the perfect solution for light- and medium-weight packaging application (max. 30 kg). The material combination guarantees a low noise unwind and an excellent printability with all types of ink systems.

tesa® 60412 not only provides an outstanding performance, but it is also an advanced alternative contributing to sustainability:

- The backing material is made of post-consumer recycled PET (70% recycled content).
- This product can be disposed together with the box into the blue bin without endangering the cardboard recycling process (certified according to INGEDE method 12).
- The production process of this product is solvent-free

tesa® 60412 grants a very good performance on recycled cardboards.

Sustainable Aspects

- Backing made with 70% recycled PET from post consumer waste
- Solvent-free production process
- Recycling friendly adhesive does not disturb the paper recycling process

Product Features

- Backing made with 70% recycled post consumer waste
- Strong, tear and puncture resistant PET backing
- Versatile water based acrylic adhesive
- Smooth, silent unwinding
- Available in brown, white and transparent

Application Fields

- Sealing of cardboard boxes
- Suitable for light- and medium-weight packaging applications (max. 30 kg)
- Excellent adhesion in recycled cardboards
- Suitable for manual and automatic dispensers
- Brand showcase and advertising purposes

Product Information

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

- PET Bio-based carbon content of liner (acc. DIN EN 16640)
- Type of adhesive water-based acrylic
- Total thickness 56 µm

Product Assortment

- Available colors white, brown, transparent

Properties/Performance Values

- Elongation at break 130 %
- Tensile strength 60 N/cm
- Adhesive strength Standard adhesion
- Automatic application yes
- Hand tearability low
- Humidity resistance yes
- Packaging Weight Up to 30 kg
- Silent unwinding yes
- Suitable for deep freezing yes
- Suitable surfaces Cardboard
- Tear resistance yes
- Transport Information Temperature 0-70°C

Adhesion to Values

- Steel 3 N/cm

Certificates

Sustainability Certificates

- Tested according to INGEDE method 12. Test report available
