

tesa® 51916

Product Information

Repulpable, Transfer Splicing Tape

Product Description

tesa® 51916 is a very thin double-sided repulpable transfer tape consisting of a modified water soluble acrylic adhesive.

tesa® 51916 features especially

- Very high shear strength
- Very good adhesion values on coated and uncoated paper
- Very low splice thickness
- Very high heat resistance
- Good repulpability over full pH-range (pH3 –pH9)

Color: Blue, Colorless

Product Features

- Very high shear strength
- Very good adhesion on coated and uncoated paper
- Very high heat resistance
- Very low splice thickness
- Good repulpability over full pH-range (pH3 –pH9)
- Paper from well-managed certified forests and other controlled sources

Application Fields

tesa® 51916 is particularly suitable for

- Permanent overlapped splices
- The use in hand dispensers or automatic applying processes
- Splicing of carbonless paper

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

• Backing	none	• Type of liner	repulpable siliconised paper
• Type of adhesive	repulpable tackified acrylic	• Total thickness	50 µm 2 mils
