

# 51455 PV11

## Product Information

Repulpable, Single-Sided Splicing Tape

## Product Description

tesa® 51455 is a single-sided repulpable splicing tape with a liner consisting of a flat-back paper and a modified water-soluble acrylic adhesive.

tesa® 51455 features

- Slit liner for easy application
- Very high shear strength
- Good adhesion on both coated and uncoated paper
- Low splice thickness
- Very high heat resistance
- Printable, coatable backing
- Good repulpability over full pH-range (pH3 –pH9)

Color: Blue

## Product Features

- The patented calcium resistant adhesive (CaRes) for a maximised life time of permanent splices on papers containing calcium carbonate (CaCO<sub>3</sub>)
- Slit liner for easier manual splice application
- Thin but strong backing to allow a low total splice thickness
- Printable and coatable backing for easy further processing
- Very high shear strength
- Very high heat resistance
- Very good adhesion values on most paper grades
- tesa® CaRes 51455 is certified by independent laboratories for: Repulpability according to TAPPI UM-213 over full pH-range (pH3 – pH9)
- Paper from well-managed certified forests and other controlled sources

## Application Fields

tesa® 51455 is particularly suitable for:

- Permanent butt splicing

# 51455

## PV11

### Product Information

#### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

#### Product Construction

• Backing	flat paper	• Total thickness	80 µm
• Type of adhesive	reculpable tackified acrylic	• Color	3.1 mils blue
• Type of liner	reculpable siliconised paper		

#### Properties/Performance Values

• Elongation at break	6 %	• Tack	medium
• Shelf life time (packed) < 25°C	12 months	• Tensile strength (crosswise)	30 N/cm 17.1 lbs/in
• Static shear resistance	very good		

#### Additional Information

Other products for butt-splicing:

- tesa® 51444 - reduced thickness for thinner splices
- tesa® 51445 - stronger backing for higher splice security
- tesa® 51465 - slit liner and splitting strip for secure tape fixation during the manual splice preparation
- tesa® 61445 - black backing for optical detection

#### Disclaimer

tesa® products prove their impressive quality day in, day out in demanding conditions and are regularly subjected to strict controls. All information and recommendations are provided to the best of our knowledge on the basis of our practical experience. Nevertheless tesa SE can make no warranties, express or implied, including, but not limited to any implied warranty of merchantability or fitness for a particular purpose. Therefore, the user is responsible for determining whether the tesa® product is fit for a particular purpose and suitable for the user's method of application. If you are in any doubt, our technical support staff will be glad to support you.
