- Competitive solution suitable for industrial applications
- Paper backing made with paper from well-managed FSC[®]-certified forests and other controlled sources
- Recycling-friendly tape according to INGEDE Method 12

The mark of
responsible forestry

EFFICIENT AND ENVIRONMENTALLY FRIENDLY

Packaging materials must be reliable and competitive. But there is also a growing demand for sustainable solutions. tesa® 4713 is designed to meet all three of these requirements.

This high-performance packaging tape offers a good initial tack and strong adhesion even on recycled cardboard. It is temperature and humidity resistant, hand tearable, and easy to unwind.

tesa® 4713 is an environmentally friendly solution as the paper backing is made with paper from well-managed FSC®-certified forests and other controlled sources. This tape can be disposed together with the cardboard without disturbing the recycling process.

Product features

- High reliability for smooth processes
- Crepe paper backing and natural rubber adhesive
- Available in brown and white
- Printable for branding or advertising

For light-weight packaging

Excellent adhesion on different types of recycled cardboard

For manual and automatic application

Paper from well-managed FSC®-certified forests and other controlled sources

| Product | Backing | Type of adhesive | Color | Adhesion to steel [N/cm] | Total thickness [µm] | Tensile strength [N/cm] |
|------------|----------------------|------------------|-------|--------------------------|----------------------|-------------------------|
| tesa® 4713 | FSC®-certified paper | Natural rubber | ●○ | 2.8 | 125 | 30 |

Reduce and recycle

Ideally, this flyer should not have been printed. If paper products are unavoidable, the second-best option is to use responsibly sourced, e. g. FSC®-certified paper and recycle the product after use.
