

tesa[®] 4970

Product Information

Double-sided filmic tape with high adhesion

Product Description

tesa[®] 4970 is a thick white double-sided self-adhesive tape consisting of a PVC-film backing and a tackified acrylic adhesive.

tesa[®] 4970 features:

- Excellent combination of high tack and immediate adhesion
- High coating weight for good bonding performance on rough or dusty surfaces
- Suitable for long term applications

Product Features

- High adhesion and very good bonding strength, often also on low surface energy surfaces
- Immediate functionality of the laminated bond due to excellent initial tack
- Light- and aging-resistant acrylic adhesive for long-term applications
- Very good plasticizer resistance

Application Fields

- Mounting of plastic and wooden trims
- Mounting of decorative POS materials and displays
- Mounting of signs and scales

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

- | | | | |
|--------------------|-------------------|-------------------|--------|
| • Backing material | PVC film | • Total thickness | 225 µm |
| • Type of adhesive | tackified acrylic | • Colour | white |

Properties/Performance Values

- | | | | |
|--------------------------|-----------|--|-----------|
| • Elongation at break | 20 % | • Static shear resistance at 23°C | good |
| • Tensile strength | 38 N/cm | • Static shear resistance at 40°C | medium |
| • Ageing resistance (UV) | good | • Tack | very good |
| • Chemical resistance | good | • Temperature resistance long term duration | 60 °C |
| • Humidity resistance | very good | • Temperature resistance min. | -40 °C |
| • Softener resistance | very good | • Temperature resistance short term duration | 70 °C |
