

# tesapack<sup>®</sup> 6300 Hand Dispenser Economy

## Product Information

"BASICO" Dispensador de cintas de embalaje

### Descripción del producto

El tesa<sup>®</sup> 6300 es un dispensador manual "BÁSICO" para el precintado de cajas que puede ser usado con todo tipo de cintas de embalaje tesa<sup>®</sup> de hasta 50mm de ancho.

La tensión de la cinta es ajustable manualmente con freno, ubicado en el centro del soporte del mandril. La cuchilla de corte está protegida con una tapa para prevenir heridas cuando no se está usando.

### Características

- The dispenser has a tension control so that even easy unwinding tesa<sup>®</sup> tapes can be used without difficulty.
- The blade is covered with a top to prevent injuries.

### Aplicación

Place the dispenser on the carton and pull it towards yourself. The contact roller presses the tape down firmly as it is applied from the roll. The tape is cut by the serrated blade by tilting the dispenser. The cut end of the tape is pressed to the carton by the flexible application plate. Threading: The tesa<sup>®</sup> roll is put on the tape wheel such that the adhesive side of the tape faces the handle. Pull the end of the tape between the tape guide roller and the metal plate until the tape is free of wrinkles.
