

CERTIFICATE

on the evaluation of recyclability within the paper industry

tesa SE
Hugo – Kirchberg – Straße 1
22848 Norderstadt
GERMANY

On the basis of the laboratory analysis and in accordance with the criteria of the PTS method PTS-RH 021:2012 (Draft Oct 2019) the sample described below

Product name	tesa® 64295
Product description (Information according to client)	The packaging aid product sample tesa® 64295 is an unprinted, one-side adhesive paper tape made of unbleached kraft pulp. The paper (150 g/m²) has adhesive coating (50 g/m²) on the inner side of the tape.
Product category acc. to PTS-RH 021:2012	II – Packaging products as well as paper and board (for the manufacture of packaging products)
Recyclable percentage¹	71.7 %

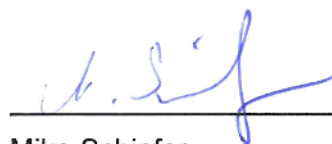

is classified as

‘The product is recyclable, but worthy of product design improvement.’

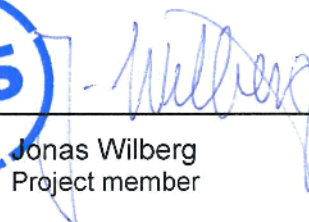

Within standard stock preparation of the packaging paper industry.

This certificate loses its validity in case of qualitative or quantitative changes of the components of the tested sample and is only applicable in connection with the test report No. ORD-01722 dated 23/04/2024.

¹ Recyclable percentage (Fibre yield) means the percentage suitable for recycling or usable in papermaking. It corresponds to total mass of the sample (50g oven-dry ± 100%) minus total reject. Water-soluble, colloiddally dissolved or finely dispersed colloiddally dissolved substances which pass into the water phase are not considered. These substances can be determined using the PTS-RH 025:2022 method.
